To determine tier for net pricing, multiply the quantity by the GSA Net price:

- If the total is less than $10,000, use GSA Net price (multiply unit List Price by 0.47 and then divide by 0.9925 to calculate net price per unit)
- If the total is between $10,000 and $25,000 use GSA Level 1 Price (multiply unit List Price by 0.4499 to calculate net price per unit)
- If the total is between $25,001 and $50,000 use GSA Level 2 Price (multiply unit List Price by 0.4381 to calculate net price per unit)

Example: 25x VA1818L
Determine Discount Level: 25 x $589.57 **[GSA Net Price]** = $14,739.25 – **Use GSA Level 1 Discount (between $10,000 - $25,000)**
Determine Net Price: $1,245 **[List Price]** x .4499 **[GSA Level 1 Discount Factor]** = $560.13 Net Price Per Unit
Calculate Extended Net Price: 25 x $560.13 = $14,003.25

ADDITIONAL NOTES

Magnuson Group collaborated with Gensler, serving as product design consultant, for KASTA.

Ships via common carrier.

Each KASTA unit includes 2 standard labels (text or icon labels), if desired.

Use model GNG-MAG-2XL ganging magnets to gang KASTA units together. For each point of contact between adjacent units being ganged together, a quantity of 1x GNG-MAG-2XL is required. For example, ganging 3x KASTA units together would require a quantity of 2x GNG-MAG-2XL.

Place ganging magnets on the inside steel walls of each adjacent unit by removing the internal liners. Position the units together with magnets facing each other to create the greatest pull.

Sample chips available.

ADDITIONAL NOTES

Ships via common carrier.

SOTARE half elliptical units receive two labels per unit. SOTARE quarter elliptical units receive one label per unit.

SOTARE units can also be configured with our Valuta family of receptacles.

Use magnets (model GNG-MAG-2; containing 2 magnets) to gang VALUTA/SOTARE units together. For each point of contact between adjacent units being ganged together, 2 magnets are required. For example, ganging 2 SOTARE units together would require 1 pair of ganging magnets.

Place ganging magnets on the inside steel walls of each adjacent unit by removing the internal liners. Position the units together with magnets facing each other to create the greatest pull.

Sample paint chips available.

Use magnets (model GNG-MAG-2; containing 2 magnets) to gang VALUTA/SOTARE units together. For each point of contact between adjacent units being ganged together, 2 magnets are required. For example, ganging 3 VALUTA units together would require 2 pairs of ganging magnets.

Place ganging magnets on the inside steel walls of each adjacent unit by removing the internal liners. Position the units together with magnets facing each other to create the greatest pull.

VALUTA units can also be configured with our SOTARE family of receptacles.

VALUTA Secure models have a narrower 1/2" wide paper opening with a locking lid for secure document disposal.

Sample chips available.

HOW TO ORDER

#1	#2	#3
Select Model	Select Signage Graphic	Select Signage Graphic Finish Color

1. Select either the signage holder with MG graphics (SIGN-MAG/ADH) or signage holder with acrylic front and customer provided graphics (SIGN-ACR.)

2. If MG magnetic graphic option (SIGN-MAG/ADH) is specified:
a. Select an MG graphic**
b. Select color—Vivid Blue, Cactus Green, Sunflower, Black, Dark Grey or White
c. Select removeable (magnetic; SIGN-MAG-R) or permanent (permanent adhesive; SIGN-ADH-P) graphic attachment.

3. If using with Valuta, indicate the desired placement of the signage holder using Valuta Label Reference Placement images. The signage holder should be placed opposite the Label (i.e. Label Ref 1; Signage Holder Ref 3.) See Valuta family for placement diagram.

4. Valuta Laminate signage is always used opposite the door and does not require a reference placement. Sotare signage placement is also pre-determined.

**Graphic options can be modified for an upcharge. Contact customer service for details.

Example Orders of Valuta units with Signage Holder:
• VA1818L; Dark Anthracite Body, Waste Opening Top in Anodized Silver; Waste Label in White, Ref 1 + SIGN-ACR in Dark Anthracite; Ref 3

ADDITIONAL NOTES

Ships via common carrier.

VALUTA/SOTARE signage is angled to allow full range of motion for the hinged top opening.

VALUTA LAMINATE signage is straight. A threaded bolt (to secure signage) is added to the back of the unit upon assembly when a unit is ordered with signage.

The Sign Holder is made of painted steel and is secured to the receptacle. There are two unique offerings:

1. Painted Steel Sign Holder with MG Magnetic Graphics (SIGN-MAG-R/P)—The 8" x 12" graphic is applied directly to the painted steel sign holder, leaving no painted steel exposed. This graphic can be either removable (magnetic) or permanent (adhesive backing).

2. Painted Steel Sign Holder with Acrylic Front and Customer Created Graphic Insert (SIGN-ACR)—A removeable acrylic cover allows for the use of custom signage using 8 1/2" x 11" sized media (or smaller.) This flexible option provides the ability for customer designed & produced signage.

All 20" tall ("M" models) and 36" tall ("H" models) KASKAD planters include 14 1/2" x 26 1/2" polybag(s) that can be filled with pea gravel to add ballast as required, depending on the specific situation [i.e., when using dense/tall plant material, where the units are situated, etc.]. Each polybag, if filled to 50% full with pea gravel, will add approximately 25 pounds of weight to the base. If additional stability is required, floor anchors can be provided upon request for no charge (hardware not included).

All 36" high KASKAD units are shipped to you completely assembled with adjustable glides in place on the base. Also included in the carton are two stabilizer bases that can be used in place of the adjustable glides for additional stability when the units are placed in open areas.

Select KASKAD models can be used on casters. See the KASKAD CASTERS product family for details.

KASKAD's fully enclosed watertight internal liner is 7 3/4" deep and can be removed if it is not being used to contain the plants.

ADDITIONAL NOTES

VALUTA Planter's fully enclosed watertight internal liner depths are as follows: VA1809L-JR: 6"; VA1809L: 6"; VA1814L: 8" VA1818L: 12".

Planters include a 14 ½" x 26 ½" polybag(s) that can be filled with sand to add ballast if internal additional weight at the base of the unit is desired for stability. Filling the polybag half full of sand will add approximately 25 pounds of weight to the base.

Use magnets (model GNG-MAG-2; containing 2 magnets) to gang VALUTA/SOTARE units together. For each point of contact between adjacent units being ganged together, 2 magnets are required. For example, ganging 3 VALUTA units together would require 2 pairs of ganging magnets.

Place ganging magnets on the inside steel walls of each adjacent unit by removing the internal liners. Position the units together with magnets facing each other to create the greatest pull.

VALUTA units can also be configured with our SOTARE family of receptacles.

Magnuson Group does not sell hand sanitizer dispensers.

HAANDER's free standing and wall-mounted models are designed to work with a wide variety of 3rd party hand sanitizer dispenser units [both touch free and push style models]. Any dispenser that fits within 7 ¾" wide by 14" high is compatible and can be most easily mounted using double sided adhesive tape, which is often included with the dispenser.

HAANDER's mounting holes align with many PURELL® Push-Style Dispensers (NXT, ES4, FMX) and PURELL® Touch-Free Dispensers (TFX, LTX, ES6 & ES8), making installation easy. ©2015. GOJO Industries, Inc. All rights reserved.

HAANDER-W: Mounts to the wall with 4 screws. Dispensers are mounted to HAANDER-W using either double sided adhesive tape (often included with dispenser) or with hardware. If the dispenser is a compatible PURELL® product, mounting holes are aligned for easy installation with hardware.

HAANDER-F: Painted steel dispenser housing mounts to post with hardware provided. Dispensers are mounted to painted steel housing using either double sided adhesive tape (often included with dispenser) or with hardware if the dispenser is a compatible PURELL® product. Mounting the dispenser to the painted steel housing with hardware is not possible unless the dispenser is a compatible PURELL® product. The painted steel base is ¼" high off the ground.

HAANDER-W includes 4 drywall screws and 4 wall anchors to mount HAANDER-W to drywall. For other applications, customer will need to supply their own hardware.

HAANDER-F includes all hardware to mount the dispenser housing to the freestanding post and base.

Sample chips available.

Masks PPE cabinet is compatible with many standard disposable mask boxes. Designed for two mask boxes (stacked on top of one another) each measuring up to 7 ¾" high by 5" wide by 4 ¼" deep.

Gloves PPE cabinet is compatible with many standard disposable gloves and tissue boxes. Gloves PPE cabinet is designed for three gloves or tissues boxes up to 10" wide by 5" high by 4 ¼" deep.

SOLNA panel above receptacle opens from right to left to allow full range of motion for VALUTA or SOTARE lid. PPE cabinets open from top to bottom and comes with internal magnetic "L Bracket" that ensures secure fit for PPE. Masks PPE cabinet includes one magnetic "L Bracket". Masks & Gloves PPE cabinet includes two magnetic "L Brackets".

SOLNA with Receptacle cannot be positioned directly next to another SOLNA with Receptacle unit and must have a 9" gap or greater between adjacent units due to the hinged panel that opens from right to left. SOLNA with Receptacle can be positioned directly next to a VALUTA or SOTARE Waste Receptacle only.

SOLNA is compatible with a wide variety of 3rd party hand sanitizer dispenser units [both touch free and push style models]. Any dispenser up to 10" wide by 12" high is compatible and can be most easily mounted using double sided adhesive tape, which is often included with the dispenser.

Magnuson Group does not sell hand sanitizer dispensers. SOLNA's mounting holes align with many PURELL® Push-Style Dispensers (NXT, ES4, FMX) and PURELL® Touch-Free Dispensers (TFX, LTX, ES6 & ES8), making installation easy. ©2015. GOJO Industries, Inc. All rights reserved.

Assembly required: Use hardware provided to attach the panel to the VALUTA or SOTARE waste receptacle. Then, attach PPE cabinet or dispenser bracket to upright. On SOLNA-MD models, the dispenser bracket and masks cabinet can be placed on either the left or right side (mounting holes are identical).

Sample chips available.

Use Front Mount hooks when mounting directly into a wall, door or surface or when access to the back of the knob cannot be reached. For best results, front mount hooks should be mounted to a stud or have blocking in the wall. Alternatively, when these options are not available it is recommended to use a toggle bolt.
