

MAGNUSON GROUP MAKES IT EASY

ONLINE RESOURCES

Product Information – Find images, inspiration and more on our website.

Price List – Find US & Canadian pricing online; GSA Advantage & NCPA contract pricing also available.

Product Animations – These short, catchy videos bring our products to life – check them out!

Downloadable PDFs – Download or share Price Lists, Quick Reference Guide or Product Overview PDFs.

Pinterest – Our Pinterest site has high-resolution images, install shots and inspiration for your office!

CAD & Revit Symbols – Request CAD or Revit symbols on our website for space planning.

FACTORY RESOURCES

Product Samples – Order discounted product samples for your evaluation and use.

Merchandise Mart Showroom – If you're in Chicago, make an appointment to come see us!

Customer Service – Our friendly, helpful & knowledgeable staff is standing by to help.

Literature – All our printed literature is available for free upon request for you or your clients.

INDUSTRY RESOURCES

Magnuson Group has partnered with some of the industry's best to ensure our products are easy to access, specify and purchase.

CETDesigner

Is your project space Move-In Ready on Day 1?

**The people are ready for the new space...
But is the new space ready for the people?**

Making Your Project Spaces Move-In Ready

MAKING YOUR BUILDING LOBBY MOVE-IN READY

MAKING YOUR OPEN OFFICE MOVE-IN READY

What is Biophilia?

“Biophilia is the innately emotional affiliation of human beings to other living organisms. Life around us exceeds in complexity and beauty anything else humanity is ever likely to encounter.”

—E.O. Wilson

Nature in the Workplace:

How can we learn and benefit from nature when creating the manmade?

CEU Preview: Biophilic design is loosely defined as the science proving how humans are healthier, more productive, more creative and learn faster when in the presence of nature (plants, water, sunlight, fresh air, natural patterns and natural materials). This can apply to products, buildings, campuses and cities.

Rigorous research on the subject is growing and the financial benefit employers or educational institutions experience when their employees or students regularly spend time in biophilic spaces can be economically quantified. Beyond great potential economic savings, biophilic spaces create many side benefits, typically including reduced utility costs and increased employee health and satisfaction.

This presentation will familiarize attendees with the topic and science behind it (and provide the sources of data to prove claims), as well as provide them the knowledge to analyze the economic potential of their own workplaces or learning environments.
